FundShare UCITS CHF Cash Fund

ISIN: NL0011280581 (CHF)

This is a sub-fund of the investment fund FundShare UCITS Umbrella Fund (“FundShare”). FundShare is an undertaking in collective investment in transferrable securities (UCITS) as defined by the Act on Financial Supervision (Wft), founded as a contractual fund under Dutch law. The fund manager is FundShare Fund Management B.V. (“Fund Manager”).

Objectives and Investment Policy

Objectives

The Sub-Fund is a Short-Term VNAV MMF, that is set up as a Qualifying Money Market Fund. In line therewith, the primary investment objective of the Sub-Fund is to maintain the net asset value of the Sub-Fund at the value of the initial capital invested by the participants plus earning. The Sub-Fund strives for a rate of income in line with the CHF money market rates.

⚠ The Sub-Fund is not a guaranteed investment and is different from an investment in deposits. The principal invested in the Sub-Fund is capable of fluctuation and the risk of loss of the principal is to be borne by the Participant. The Sub-Fund does not rely on external support for guaranteeing the liquidity of the Sub-Fund or stabilising the NAV per unit.

Dealing Frequency

This Fund deals daily (continuously).

Investment Policy

The Sub-Fund shall invest exclusively in:

- high quality money market instruments denominated in CHF and which have a residual maturity upon purchase of not more than 397 days or regular yield adjustments consistent with such a maturity, are issued or guaranteed by EU Member States, the Swiss government or a Qualified Issuer as listed in the Prospectus and are considered High Quality according to the internal credit assessment;
- high quality money market instruments denominated in CHF, issued by (non-) financial corporations, with a residual maturity of not more than 397 days or regular yield adjustments consistent with such a maturity and considered High Quality according to the internal credit assessment;
- deposits held in CHF with EU credit institutions on an ancillary basis where the Sub-Fund shall hold no more than 10% of its Portfolio Value in deposits with one single credit institution; and the Sub-Fund shall hold a maximum of 40% of its Portfolio Value in deposits with credit institutions; and

- up to 10% of its Portfolio Value as ancillary cash to service in- and outflow of Participants and to facilitate the reinvestment of proceeds from maturity and sale of money market instruments.

The Sub-Fund aims to comply on an on-going basis with the following portfolio restrictions:

- the Sub-Fund may invest up to 5% of its Portfolio Value in money market instruments issued or guaranteed by the same body;
- the Sub-Fund may invest up to 10% of its Portfolio Value in money market instruments by the same body, if the total cumulative value of money market instruments of more than 5% (excluding specific high quality covered bonds) does not exceed 40% of the total Portfolio Value;
- the Sub-Fund may invest up to 20% in specific high quality covered bonds issued by a single credit institution, as long as the cumulative value of money market instrument exceeding 5% in a single body does not exceed 60% of the total Portfolio Value;
- the Sub-Fund shall invest a maximum of 35% of its Portfolio Value in money market instruments issued by a single EU Member State or qualified Institution (which are not bound by the cumulative restrictions above);
- the Weighted Average Maturity of the portfolio will be no more than 60 days; and
- the Weighted Average Life of the portfolio will be no more than 120 days.

By way of derogation, the Sub-Fund can invest more than 35% of its Portfolio Value in money market instruments issued by the Swiss Confederation or by a public institution with regulatory authority in the Swiss Confederation, if:

- the Sub-Fund holds money market instruments of at least six different issues by the issuer; and
- the Sub-Fund limits the investment in money market instruments from the same issue to a maximum of 30% of its Portfolio Value.

Risk and Reward Profile

The Risk and Reward Indicator

This indicator is a measure for the variation in value (volatility) and future performance. The Fund invests in relatively short-term Swiss franc

denominated corporate and/or government bonds and has therefore a very low volatility.

Data on the composition of the portfolio of the Fund can be found on the website of the Fund Manager. This may be helpful to get more insight into the risk profile of the Fund.

Historical data used for the calculation of the risk indicator, may not be reliable indicators of the future. It is not guaranteed that the shown risk and reward indicator of the Fund remains unchanged. The category may change.

The lowest risk category does not mean that the investment is risk free.

Other specified risk

The following risk are essential to this Fund and are not (sufficiently) reflected by the indicator:

- **Credit Risk:** The Sub-Fund invests in high quality short term money market instruments. Despite the fact that these instruments are deemed by the Manager to be of high creditworthiness, the risk remains that one or more of these instruments fail to repay principal, in which case the participations in the Sub-Fund may lose value.

- **Interest Rate Risk:** In case of a sharp move in short term interest rates the Sub-Fund may not be able to process redemption requests at a constant
